OBJECTIVE

Highly motivated CSE student with strong skills in Python, Java, C, and web technologies, seeking to apply technical and problem-solving skills to develop innovative software solutions and gain practical industry experience.

EDUCATION

Bachelor of Computer Science

Ganamani College of Technology

2023 – Present

12 Grade

Government Higher Secondary School

2022 – 2023

PROFESSIONAL EXPERIENCE

AEX Xenora Technologies

Full Stack Web Development

07/2026 – 08/2026

- Completed a Full Stack Web Development course covering HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, Node.js, and Express.js.
- Gained practical experience with MongoDB, MySQL, REST APIs, CRUD operations, JWT authentication, Git/GitHub, and Postman.
- Successfully developed real-world projects including responsive websites and full-stack applications, demonstrating strong and software development skills.

MSQUARE

Data Analytics

07/2025 – 08/2025

- Analyzed and processed datasets using Python, Pandas, and NumPy to identify trends and meaningful insights. Performed data cleaning, preprocessing, and exploratory data analysis (EDA) to improve data quality.
- Created visualizations and charts using Matplotlib to present analytical findings clearly.
- Used SQL for data extraction, filtering, and analysis to support data-driven decision-making.

SKILLS

Technical Skills:

C,C++,Java, Python,
HTML,CSS,React,Nodejs,Mongodb

Soft Skills:

Team-work,Adaptability,Time-
management,Leadership

PROJECTS

Portfolio Website: 🌐

- Personal Portfolio Website — React.js, HTML, CSS, JavaScript, Tailwind CSS. Added interactive sections including About, Skills, Projects, Resume, Contact, and Footer. Used Tailwind CSS for modern UI design and deployed the website online for easy access.

Development of line Follower Robot:

- Developed an autonomous robot using Arduino, IR sensors, and dual DC motors to follow predefined paths. Optimized structural code execution to allow seamless negotiation of sharp curves.

Arduino Obstacle Avoiding Robot:

- Built a self-navigating robot using Arduino Uno, ultrasonic sensors, and motor drivers. Implemented real-time obstacle detection within 20 cm and automatic reverse-and-turn movements for safe navigation.

EXTRA-CURRICULAR ACTIVITIES

NPTEL Certification:

- Cloud Computing
- Internet of Things (IoT)
